

Monoclonal Antibody to C Reactive Protein (CRP)

RMA03639-C 100ug

[PROPERTIES]

Source: Monoclonal antibody preparation

Host: Rabbit

Purification: Protein A and Protein G affinity chromatography.

Traits: Liquid

Concentration: 2mg/ml

Ig Isotype:IgG

UOM: 100µg

Cross Reactivity: ELISA,CMIA,CLIA,FCM

Applications: ELISA

[IMMUNOGEN]

Immunogen: Recombinant protein of CRP.

[APPLICATIONS]

Optimal working dilutions must be determined by end user.

[FORMULATION]

Form & Buffer: Supplied as solution form in 0.01M PBS, pH7.4.

[STORAGE AND STABILITY]

Storage: Avoid repeated freeze/thaw cycles.

Store at 4°C for frequent use.

Aliquot and store at -20°C for 12 months.

Stability Test: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less

than 5% within the expiration date under appropriate storage condition.

[IDENTIFICATION]

[IMPORTANT NOTE]

The kit is designed for research use only, we will not be responsible for any issue if the kit was used in clinical diagnostic or any other procedures.
